640 Acres.

State of Texas--General Land Office.

*Corrected
July 1880*

This Certificate Entitles the **Missouri, Kansas and Texas Extension Railway Company** to Six Hundred and Forty Acres of Land, to be located upon any of the vacant, unreserved and unappropriated public domain of the State of Texas, information having been received that said Railway Company have completed a section of thirty-one miles and four thousand and fifty-seven feet of their road, in accordance with their charter and the General Laws regulating railroads.

The Lands granted to said Company are to be located in the following manner :

1.—Two sections of land adjoining and connecting with each other must be surveyed, one for the State and the other for the Company. 2.—The surveys to be made square, unless prevented by previous entries or navigable streams. 3.—When the field-notes have been returned to the General Land Office, the Commissioner will number the surveys and report the result to the Surveyor, who will fill up the blanks left in his record for that purpose, accordingly. (As a matter of convenience in describing the surveys, when reporting the numbers the Surveyor should number the field-notes temporarily, in pencil.) 4.—In dividing the surveys, a fraction of over three hundred and twenty acres will be counted as a whole section, and two fractions of less than three hundred and twenty acres will be regarded as a section. 5.—The even numbers will be reserved to the State, and the odd numbers to the Company.

In Testimony Whereof, I hereunto set my hand and affix the impress of the Seal of said Office, this Twenty-second day of November, A.D. 1880.
